ROADMAP

Monday, October 19, 2026 6:16 PM

Note:

1. **Mainly focus on Quality over Quantity.**
2. **Aptitude + CS Fundamentals should be covered in class hours itself no need of another time allocation**

JAVA - Main Programming language (Udemy @AbdulBari Course) Complete before the sem-1

+

DSA in parallel (resources I have shared) RESOURCE Complete at least 100 problems before sem. Topics (arrays,strings,hashing)

+

FOR WEB DEV (not full stack) -> (Gem Website) Learn HTML and CSS: Free Hands-On Tutorial | Scrimba

+

Tools like Git,Shell commands,File Management commands from the terminal (at your own time span)

+

Do some projects with knowing the full flow of the project
